

Do not let push LPFM in favor of FM Translators. I listen to K-Love on an FM Translator and find it both very positive and encouraging during my drives to and from work. I know plenty of people that listen to the station and enjoy it as it offers clean, positive, family messages. I think it would hurt the community to lose all pro-family and encouraging sentiments conveyed over the radio by K-Love. Please reconsider this and leave FM Translators alone!!
